WEEKLY JOURNAL EXPERIENCES

For the Month of **MARCH**

NAME OF INTERN	ARDEN B. MECASIO	COOPERATING AGENCY
COURSE / SECTION	BS INFORMATION TECHNOLOGY 4B	EULOGIO "AMANG" RODRIGUEZ INSTITUTE OF SCIENCE AND TECHNOLOGY (EARIST)
CONTACT NO.	09561692738	
DEPARTMENT/ OFFICE ASSIGNED	MANAGEMENT INFORMATION SYSTEM (MIS)	COOPERATING AGENCY ADDRESS
DEPARTMENT/ OFFICE CONTACT NO.	136	NAGTAHAN ST. SAMPALOC, MANILA
DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>March 30, 2026</u> <i>Date</i>	On this day, I improved the Student Enrollment modules by fine-tuning the change course function. Additionally, I created a helper function that ensures consistency in imported student data before storing it in the system database. 	I learned how improving backend data handling directly affects system reliability, and how UI restructuring helps users navigate more efficiently.	Morning IN: OUT:	IN: 7:49 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 6:00 PM
			No. of Hrs Rendered	9 hours
Tuesday <u>March 31, 2026</u> <i>Date</i>	I focused on completing the core features of the Student Enrollment module. This included developing the logic for adding new courses, removing enrolled courses, and dropping subjects. 	I learned the importance of completing module functionality step-by-step and ensuring all CRUD operations work correctly to maintain system integrity.	Morning IN: OUT:	IN: 7:55 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 6:01 PM
			No. of Hrs Rendered	9 hours

DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>April 06, 2026</u> <i>Date</i>	On this day, I import the file of missing student records to the system. After importing data, I performed data cleaning, which involved checking duplicate entries, inconsistent formatting, and incorrect values. I also applied data normalization techniques to standardize how information is stored in the database. 	I learned that clean and structured data is essential for system reliability. Even small inconsistencies can lead to errors in reporting and processing.	Morning IN: OUT:	IN: 7:37 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 6:21 PM
			No. of Hrs Rendered	9 hours
Tuesday <u>April 07, 2026</u> <i>Date</i>	I created new functionality and handlers for parsing file data, validating formats, and ensuring correct mapping into database tables in import student grade file. I also enhanced the Program Slot Monitoring Module, which tracks available slots per program, by improving its logic and responsiveness. 	I learned how file import systems must include validation layers to avoid incorrect or duplicated data entry, and how monitoring tools improve administrative decision-making.	Morning IN: OUT:	IN: 7:37 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 6:27 PM

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>April 13, 2026</u> <i>Date</i>	I improved the backend validation system to detect and prevent duplicate grade entries during file uploads. This involved adding checks before inserting data into the database. I also created normalization handlers for student personal information imports, ensuring that names, formats, and fields follow consistent database standards. 	I learned the importance of backend validation in maintaining data integrity and how normalization reduces redundancy and inconsistencies.	Morning IN: OUT:	IN: 7:40 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 7:11 PM
			No. of Hrs Rendered	10 hours
Tuesday <u>April 14, 2026</u> <i>Date</i>	I completed the backend logic for student grade file importing, ensuring stable and error-free processing. Additionally, I created an Archive Module where deleted records are temporarily stored instead of being permanently removed. This allows recovery of data when needed. 	I learned how archiving systems improve data safety and provide a fallback mechanism for accidental deletions.	Morning IN: OUT:	IN: 7:50 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 7:00 PM
			No. of Hrs Rendered	10 hours

Wednesday <i>Date</i>			Morning IN: OUT: Afternoon IN: OUT:	
			No. of Hrs Rendered	
Thursday <i>Date</i>	I developed tagging modules used to categorize students based on NSTP requirements and academic department/section assignments. They are called NSTP Tagging Module and Department Section Tagging Module. 	I learned how tagging systems improve data organization and make searching and grouping records more efficient.	Morning IN: OUT: Afternoon IN: OUT:	IN: 7:49 PM OUT: 12:00 PM IN: 1:00 PM OUT: 7:02 PM
			No. of Hrs Rendered	10 hours
Friday <i>Date</i>			Morning IN: OUT: Afternoon IN: OUT:	
			No. of Hrs Rendered

DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>April 20, 2026</u> <i>Date</i>	I reviewed the backend system and removed unnecessary or unused API endpoints to improve performance. I also refactored large blocks of code into smaller, reusable modules to improve readability, maintainability, and system structure. 	I learned that clean and modular code improves system performance and makes future updates easier to manage.	Morning IN: OUT: Afternoon IN: OUT:	IN: 7:36 AM OUT: 12:00 PM IN: 1:00 PM OUT: 7:00 PM
			No. of Hrs Rendered	10 hours
Tuesday <u>April 21, 2026</u> <i>Date</i>	I added a permission system where users are granted specific actions per module. Instead of general access, users now have controlled rights such as creating, updating, or deleting records depending on their role. This improves system security and role management. 	I learned how role-based and action-based access control is important for securing system functionalities and preventing unauthorized actions.	Morning IN: OUT: Afternoon IN: OUT:	IN: 7:32 AM OUT: 12:00 PM IN: 1:00 PM OUT: 8:00 PM

Computer Science Department

Thursday April 23, 2026 <i>Date</i>	I enhanced the search functionality for student grade records, making it faster and more accurate. I also redesigned the Section, Email Template Manager and School Year module interface to make it more modern, compact, and user-friendly for better navigation. 	I learned how both backend optimization and UI improvements contribute to better user experience.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 7:32 PM OUT: 12:00 PM IN: 1:00 PM OUT: 7:04 PM 10 hours

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>April 27, 2026</u> <i>Date</i>	I refined the import system for student grades and personal information to ensure consistent processing. I also extended action-based access control to multiple modules such as NSTP Tagging, Department Section Tagging, and Archive modules to ensure consistent security across the system. 	I learned that adding new functionalities requires careful validation to ensure they work correctly within the existing system. I realized that system testing is crucial in identifying hidden bugs and preventing potential issues during actual use.	Morning IN: OUT: Afternoon IN: OUT:	IN: 7:43 AM OUT: 12:00 PM IN: 1:00 PM OUT: 9:00 PM
			No. of Hrs Rendered	12 hours
Tuesday <u>April 28, 2026</u> <i>Date</i>	On this day, I enhanced the Faculty Registration feature by implementing a delete function. I also integrated action-based permission control specifically for the delete operation, ensuring that only users with proper access rights can perform deletion. After implementing these updates, I conducted system testing to verify that the new functionality works correctly and does not affect other modules.	I learned the importance of completing module functionality step-by-step and ensuring all CRUD operations work correctly to maintain system integrity. 			Rendered	
Thursday April 30, 2026 <i>Date</i>	I resolved errors discovered during system testing and audits. After fixing issues, I created instructional videos explaining how each module works, including how to create programs, curriculums, courses, and sections. This serves as user documentation for system users.	I realized that creating tutorial videos helps users understand complex system processes without needing direct assistance. I also learned that proper documentation is essential for supporting users and ensuring they can effectively navigate and use the system independently.
